SUMMARY

Full-stack Experienced Full-stack software engineer specializing in PERN stack applications. Skilled in front-end development, passionate about creating intuitive interfaces. Also, proficient in providing technical support for hardware, software, and network issues. Seeking a role to drive business success through software solutions.

TECHNOLOGIES

Tech Stack includes: *Javascript, React, HTML5, CSS3, TailwindCSS, Node.js, Express, PostgreSQL, SQL, Bootstrap, Material UI, Vite, Socket.IO, Firebase, Next.js, Open AI API, JSON*

Tools include: *Git, Github, VsCode, Figma, Canva, Slack, Excalidraw, MacAfee, BMC Remedy, Jira, Salesforce CRM*

PROFESSIONAL EXPERIENCE

Bask   **Remote**
Junior Software Developer   *November 2023 – February 2024*
- Managed component state in React applications, ensuring seamless functionality and user experience
- Effectively used debugging methods and tools to diagnose and solve bugs in the code-base
- Improved code quality through active code reviews and shadowing developers, resulting in fewer bugs
- Executed React best practices to optimize website functionality, resulting in a 20% boost in user engagement

Geico Auto Insurance   **Remote**
IT Support Specialist   *June 2020 – January 2023*
- Managed 50+ technical support requests weekly, resolving hardware, software, and network issues swiftly.
- Administered a ticketing system including BMC remedy, prioritizing, and documenting 100+ support requests to expedite resolution and enhance team efficiency.
- Coordinated with cross-functional teams to deploy McAfee software updates, ensuring system compliance
- Completed IT requests guaranteeing timely resolution and adherence to service level agreements (SLAs)

Underwriter   *April 2015 – May 2021*
- Supported field representatives in binding new business policies, approving bodily injury limits >$300,000, and maintaining a perfect 5/5 quality score
- Conducted cross-functional meetings with service and claims teams to analyze pain points, validate existing processes, and implement strategies for sustained profitability
- Proactively communicated tier and placement changes to clients based on driving records, resulting in a 90% success rate in selling and retaining higher-cost renewal policies through strategic sales techniques
- Ensured adherence to standard practices and implemented third-party tools to assess and identify insurance coverages suitable for the risk, subsequently applying accurate policy ratings

TECHNICAL PROJECTS

SynergyConnect   **Remote**
Authentication & Tailwind CSS – Software Engineer   *June 2023 – July 2023*
- Expanded technical skills beyond the curriculum using TailwindCSS for mobile app development, despite initial training in CSS
- Designed and applied a visually captivating and intuitively seamless user interface, refining user experience
- Successfully integrated Socket.IO and Jitsi API to provide users with a vibrant centralized communication space, fostering a thriving synergistic community

PersonalPortfolio   **Remote**
Founder – Software Developer   *August 2023 – September 2023*
- Engineered a portfolio website with Vite.js for accelerated build speed, optimizing development workflow
- Integrated React for dynamic content rendering and enabled React Router for fluid navigation with efficient client-side routing and minimal page reloads
- Utilized Tailwind CSS to streamline styling, delivering a visually appealing and responsive platform

AILearnLab   **Remote**
Full Stack – Software Engineer   *March 2024 – Present*
- Developed an AI-driven project using Next.js, Firebase, and Tailwind CSS
- Implemented built-in lesson plans and goal-setting features, boosting platform engagement and usability
- Utilized version control, ensuring smooth collaboration and efficient updates

EDUCATION

Full Stack Academy Web Development Bootcamp
Full Stack JavaScript Web Development Immersive — Software Engineering Certificate

The Collage at Brockport State University of New York
Bachelor of Science in Sports Management, Minor in Information Technology
